Terms and conditions for product documentation

Permissions for the use of these publications are granted subject to the following terms and conditions.

Applicability

These terms and conditions are in addition to any terms of use for the IBM® website.

Personal use

You may reproduce these publications for your personal, noncommercial use provided that all proprietary notices are preserved. You may not distribute, display or make derivative work of these publications, or any portion thereof, without the express consent of IBM.

Commercial use

You may reproduce, distribute and display these publications solely within your enterprise provided that all proprietary notices are preserved. You may not make derivative works of these publications, or reproduce, distribute or display these publications or any portion thereof outside your enterprise, without the express consent of IBM.

Rights

Except as expressly granted in this permission, no other permissions, licenses or rights are granted, either express or implied, to the publications or any information, data, software or other intellectual property contained therein.

IBM reserves the right to withdraw the permissions granted herein whenever, in its discretion, the use of the publications is detrimental to its interest or, as determined by IBM, the above instructions are not being properly followed.

You may not download, export or re-export this information except in full compliance with all applicable laws and regulations, including all United States export laws and regulations.

IBM MAKES NO GUARANTEE ABOUT THE CONTENT OF THESE PUBLICATIONS. THE PUBLICATIONS ARE PROVIDED "AS-IS" AND WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING BUT NOT LIMITED TO IMPLIED WARRANTIES OF MERCHANTABILITY, NON-INFRINGEMENT, AND FITNESS FOR A PARTICULAR PURPOSE.

Introduction

This document presents changes, both visible and configurable, included in the May 2017 release of IBM Kenexa® Lead Manager.

The objectives of this document are to:

- Present feature enhancements and usability and performance improvements that are introduced in this release.
- Document changes in system requirements, if applicable.

Visible Changes

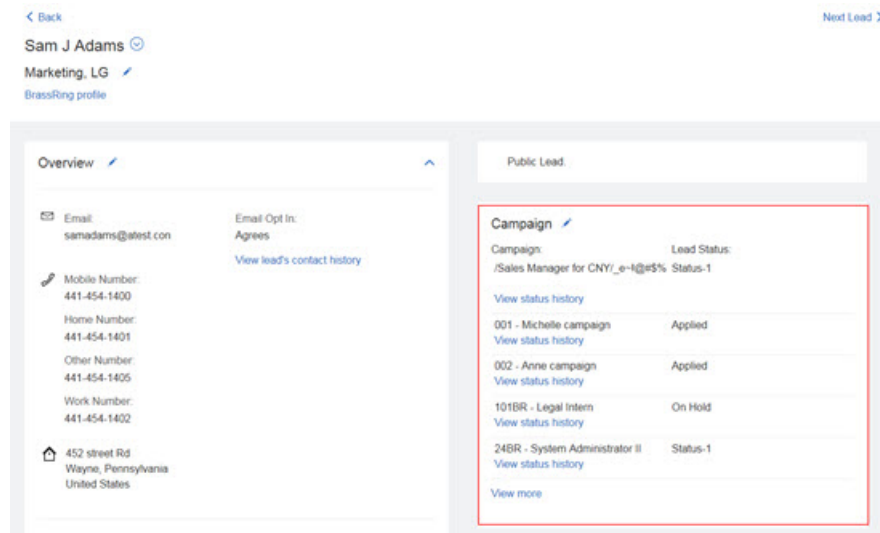

The current release of IBM Kenexa Lead Manager includes the following visible changes. Visible changes alter the appearance or performance of the product without requiring any configuration. The changes are immediately visible or available to users.

View Campaign History Enhancement

Lead Manager users now have a modified view of a lead's **Campaign History** within the **Campaign** section on the lead profile page. The **Campaign** section now defaults to displaying up to five campaigns that are associated with the lead, and an option to **View more**. The **View Status History** link is now per campaign to more easily view campaign-specific information.

View Campaign History

On a lead's Profile page, the **Campaign** section displays the first 5 campaigns that are associated with the lead. Campaigns are sorted first by **Active, On Hold, Closed**, and then alphabetically within each grouping.

Lead Manager users select **View status history** to view the lead's status history for each individual campaign.

Lead Status History ×		
Campaign name	Status history	Details
001 - Michelle campaign	Applied Status-1	Feb 23, 2017, Admin Pradeep Nov 16, 2016, Admin Pradeep

The **Lead Status History** modal displays the **Campaign name**, the **Status History** for that campaign, and **Details** about the selected campaign such as the last status update and who changed the status.

Lead Manager users can also select **View More** to view all the campaigns that are associated with the lead.

Campaign ✎	
Campaign:	Lead Status:
/Sales Manager for CNY/ _e-I@#S% ^&*()_+{} :~<->?{} View status history	Status-1
001 - Michelle campaign View status history	Applied
002 - Anne campaign View status history	Applied
101BR - Legal Intern View status history	On Hold
24BR - System Administrator II View status history	Status-1
31BR - Doggie Daycare Manager View status history	Status-1
[Sales Manager for CNY] View status history	Applied
Astro View status history	Status-2
View less	

Select the **View less** to return to the original view of five campaigns.

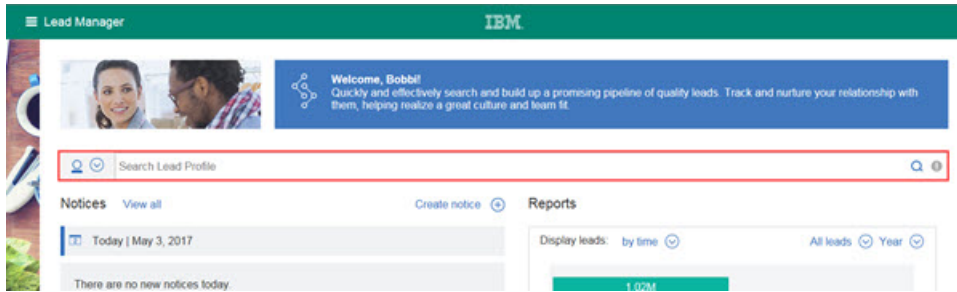

Lead Manager Search - Search Enhancements

Lead Manager search enhancements now include two new search bars, a new hamburger menu/search behavior, a search variable change, and a saved search enhancement.

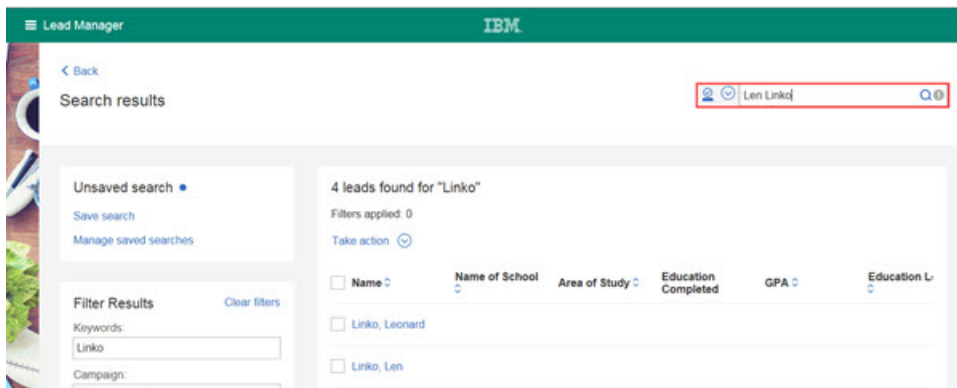

Search Enhancements

Search enhancements now include:

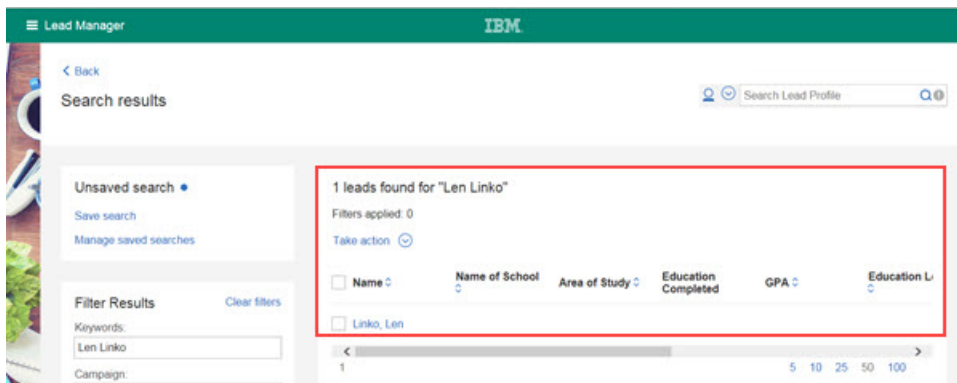

- A new search bar on the Lead Manager landing page. Users can search for **Lead**, **Lead name**, and **Campaign** in this search bar.

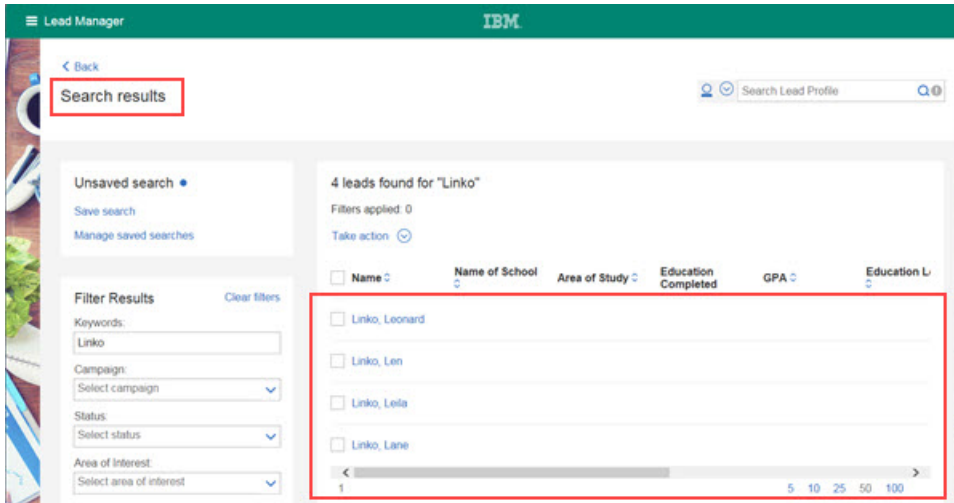

- A new search bar within the Search results page where users can filter their current search results or initiate new searches. Users can search for **Lead**, **Lead name**, or **Campaign** from this search bar.

Users can use the search bar to filter their current search results.

- Search from the hamburger menu search bar. Previously, when Lead Manager users initiated searches from the hamburger menu, the menu remained open on the search results page. Now when a Lead Manager user initiates a search from the hamburger menu, the menu auto-closes when the search results page opens.

- Search variables follow these new rules:
 - The two character limit for **Lead name** is **retained**.
 - The two character limit for **Lead Profile** and **Campaign** is removed.
 - Empty search field strings result in a full data search result.
- The **Saved search** feature is now available when a user enters either a search criteria or at least one filter criteria for **Lead name** or **Lead Profile**. Saved search is not yet available for **Campaign** search.

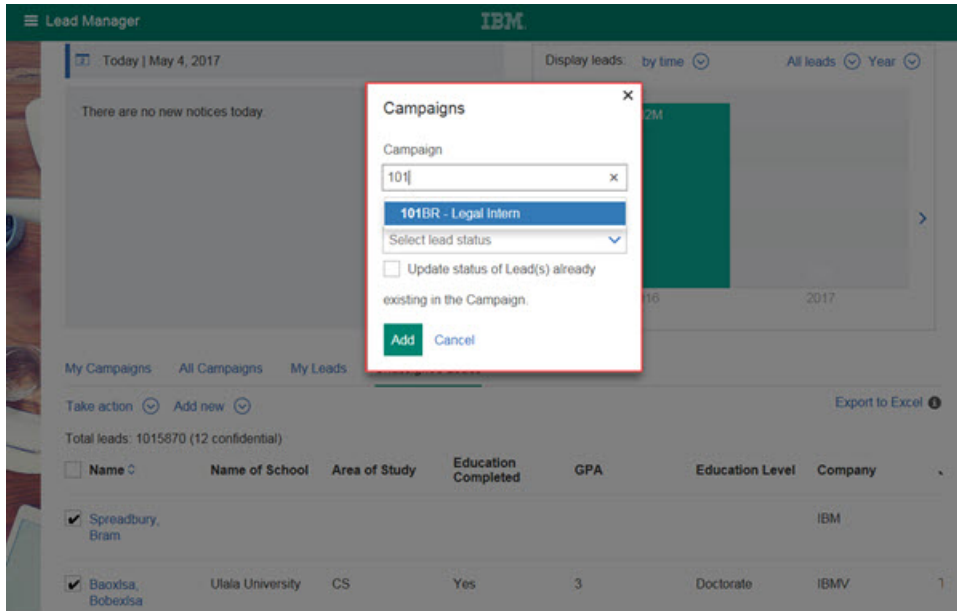

Add to Campaign Enhancement

This release introduces auto-complete for the **Add to Campaign** action on Lead Listing pages, the **Bulk Parsing** page, and the Lead profile page.

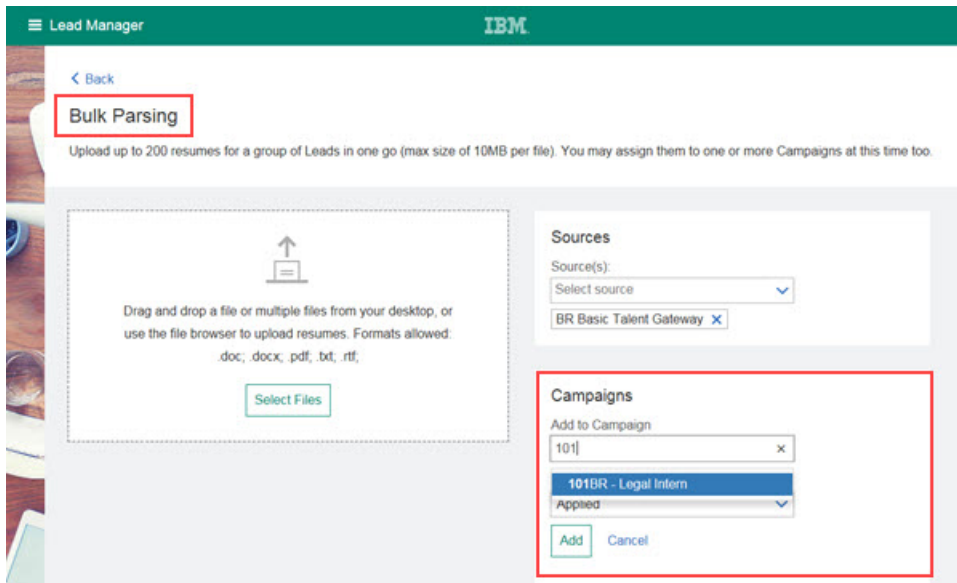

Add to Campaign - Auto-complete

Auto-complete for **Add to Campaign** is available in the following workflows:

- **Lead Listing** page. Lead Manager user selects a check box for leads, selects the **Add to Campaign** action, and begins typing the **Campaign** name in the **Campaign** field. Auto-complete responds with a list of potential campaign name matches. User selects a suggested campaign name, completes the **Add to Campaign** fields, and selects **Add**.

- **Bulk Parsing** page. During Bulk Parsing, Lead Manager users access the **Add to Campaign** field in the **Campaign** section. User begins to type a name in the campaign field and auto-complete responds with a list of potential campaign name matches. User selects a suggested campaign name, completes the **Campaign** section, and selects **Add**.

- **Lead Profile** page. Lead Manager users access the **Add to Campaign** field in the **Campaign** section on the Lead Profile page. User begins to type a name in the campaign field and auto-complete responds with a list of potential campaign name matches. User selects a suggested campaign name, completes the **Campaign** section, and selects **Add**.

Configurable Changes

The current release of IBM Kenexa Lead Manager does not include any configurable features. Configurable features must be configured or turned on to be visible and available to users.

Notices

This information was developed for products and services offered in the US. This material might be available from IBM in other languages. However, you may be required to own a copy of the product or product version in that language in order to access it.

IBM may not offer the products, services, or features discussed in this document in other countries. Consult your local IBM representative for information on the products and services currently available in your area. Any reference to an IBM product, program, or service is not intended to state or imply that only that IBM product, program, or service may be used. Any functionally equivalent product, program, or service that does not infringe any IBM intellectual property right may be used instead. However, it is the user's responsibility to evaluate and verify the operation of any non-IBM product, program, or service.

IBM may have patents or pending patent applications covering subject matter described in this document. The furnishing of this document does not grant you any license to these patents. You can send license inquiries, in writing, to:

*IBM Director of Licensing
IBM Corporation
North Castle Drive, MD-NC119
Armonk, NY 10504-1785
US*

For license inquiries regarding double-byte character set (DBCS) information, contact the IBM Intellectual Property Department in your country or send inquiries, in writing, to:

*Intellectual Property Licensing

Some jurisdictions do not allow disclaimer of express or implied warranties in certain transactions, therefore, this statement may not apply to you.

This information could include technical inaccuracies or typographical errors. Changes are periodically made to the information herein; these changes will be incorporated in new editions of the publication. IBM may make improvements and/or changes in the product(s) and/or the program(s) described in this publication at any time without notice.

Any references in this information to non-IBM websites are provided for convenience only and do not in any manner serve as an endorsement of those websites. The materials at those websites are not part of the materials for this IBM product and use of those websites is at your own risk.

IBM may use or distribute any of the information you provide in any way it believes appropriate without incurring any obligation to you.

Licensees of this program who wish to have information about it for the purpose of enabling: (i) the exchange of information between independently created programs and other programs (including this one) and (ii) the mutual use of the information which has been exchanged, should contact:

*IBM Director of Licensing
IBM Corporation
North Castle Drive, MD-NC119
Armonk, NY 10504-1785
US*

Such information may be available, subject to appropriate terms and conditions, including in some cases, payment of a fee.

The licensed program described in this document and all licensed material available for it are provided by IBM under terms of the IBM Customer Agreement, IBM International Program License Agreement or any equivalent agreement between us.

The performance data discussed herein is presented as derived under specific operating conditions. Actual results may vary.

The client examples cited are presented for illustrative purposes only. Actual performance results may vary depending on specific configurations and operating conditions.

The performance data and client examples cited are presented for illustrative purposes only. Actual performance results may vary depending on specific configurations and operating conditions.

Information concerning non-IBM products was obtained from the suppliers of those products, their published announcements or other publicly available sources. IBM has not tested those products and cannot confirm the accuracy of performance, compatibility or any other claims related to non-IBM products. Questions on the capabilities of non-IBM products should be addressed to the suppliers of those products.

Statements regarding IBM's future direction or intent are subject to change or withdrawal without notice, and represent goals and objectives only.

All IBM prices shown are IBM's suggested retail prices, are current and are subject to change without notice. Dealer prices may vary.

This information is for planning purposes only. The information herein is subject to change before the products described become available.

This information contains examples of data and reports used in daily business operations. To illustrate them as completely as possible, the examples include the names of individuals, companies, brands, and products. All of these names are fictitious and any similarity to actual people or business enterprises is entirely coincidental.

COPYRIGHT LICENSE:

This information contains sample application programs in source language, which illustrate programming techniques on various operating platforms. You may copy, modify, and distribute these sample programs in any form without payment to IBM, for the purposes of developing, using, marketing or distributing application programs conforming to the application programming interface for the operating platform for which the sample programs are written. These examples have not been thoroughly tested under all conditions. IBM, therefore, cannot guarantee or imply reliability, serviceability, or function of these programs. The sample programs are provided "AS IS", without warranty of any kind. IBM shall not be liable for any damages arising out of your use of the sample programs.

Terms and conditions for product documentation

Permissions for the use of these publications are granted subject to the following terms and conditions.

Applicability

These terms and conditions are in addition to any terms of use for the IBM website.

Personal use

You may reproduce these publications for your personal, noncommercial use provided that all proprietary notices are preserved. You may not distribute, display or make derivative work of these publications, or any portion thereof, without the express consent of IBM.

Commercial use

You may reproduce, distribute and display these publications solely within your enterprise provided that all proprietary notices are preserved. You may not make derivative works of these publications, or reproduce, distribute or display these publications or any portion thereof outside your enterprise, without the express consent of IBM.

Rights

Except as expressly granted in this permission, no other permissions, licenses or rights are granted, either express or implied, to the publications or any information, data, software or other intellectual property contained therein.

IBM reserves the right to withdraw the permissions granted herein whenever, in its discretion, the use of the publications is detrimental to its interest or, as determined by IBM, the above instructions are not being properly followed.

You may not download, export or re-export this information except in full compliance with all applicable laws and regulations, including all United States export laws and regulations.

IBM MAKES NO GUARANTEE ABOUT THE CONTENT OF THESE PUBLICATIONS. THE PUBLICATIONS ARE PROVIDED "AS-IS" AND WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING BUT NOT LIMITED TO IMPLIED WARRANTIES OF MERCHANTABILITY, NON-INFRINGEMENT, AND FITNESS FOR A PARTICULAR PURPOSE.
